School of Communications and Information Technology

- Bachelor of Communications & Information Technology with **Honours (Merit)** (Expected)
- **NTU University Scholar's Programme (NTU-USP) Premier Scholarship** recipient (50 recipients per year)

Temasek Polytechnic

Apr 2019 – May 2022

School of Business

- Diploma (**Merit**) in Communications & Media Management
- **Valedictorian and Course Silver Medallist** (3.98/4.0 GPA)
- **IMDA Excellence Award & Temasek Polytechnic Scholarship** Recipient

WORK EXPERIENCE

ByteDance

Sep 2025 – Apr 2026

Product Manager & UI/UX Designer (Intern)

• Owned two of my own features:

- 1. The **registration and onboarding process revamp** on the start.ai app, leading to a **56% increase in onboarding completion**, and **17% increase in CTR**
- 2. A **consumer-facing landing page** to fill a gap in the conversion funnel, leading to a **20% increase in conversion rate**.
- For both features, I spearheaded and oversaw the end-to-end process, from creating the **PRD** to pitching to stakeholders, creating **high-fidelity wireframes** and collaborating with developers. I also led smoke testing, debugging, **UAT**, conducted live demos and oversaw the live launch and post-launch **metric tracking**.
- Redesigned the **UI** of an ad that gets users to label tasks on crowdsourcing app start.ai, utilising native, minimalistic design to reduce user cognitive load; resulted in a **CTR increase from 2.4% to 12.1% (~5× improvement)** in engagement.
- Built data tables using **SQL Query** and **visual data dashboards** to analyse the user onboarding funnel, identifying key drop-off points and establishing benchmark metrics.

Lumens Pte Ltd

Jul 2025 – Sep 2025

Product Design Intern

- Led efforts for design improvements of internal-facing car rental management system, conducting **UX research** amongst customer base, creating **low and high fidelity wireframes in Figma**, **designing UAT cases**, and working directly with developers and product managers.
- Designed the **Figma brand and style guidelines** for client-facing car rental mobile app.
- Refined PRDs with product managers to fit both **user and business needs**.

Health Promotion Board (HPB)

Jan 2025 – Jun 2025

Product Marketing Intern

- Liaised with product marketing managers to analyse performance trends and product functionality to develop marketing **eDMs, video, and graphic content**.
- Coordinated with external agencies on **A/B testing** for email marketing efforts, analysing data from test groups and refining deliverables based on what performed best.

- Lead **User Acceptance Testing (UAT)** of automated notification systems for HPB's Healthy 365 mobile app and fit bit.

Sentosa Development Corporation (SDC)

Apr 2021 – Oct 2021

Digital Marketing Intern

- Created and edited assets for company's social media channels (**EDMs, short form and long form videos, banners, GIFs**).
- Facilitated interviews of Sentosa's younger target audience, identified a market gap with Gen Z, then **proposed and pioneered the start of the Sentosa's TikTok Account**.
- Wrote copies for marketing material (**website articles, eDMs, social media content**).
- Assisted in editing and updating Sentosa's official website using **HTML & CSS**.

Freelance Emcee - [Emcee Portfolio](#)

2024-Present

- Hosted for a wide variety of large-scale events for large clients including Comic Con, Watsons, McDonalds, PAP, SAFRA, YKK Corporation, Asia Cat Expo, Tech Week Singapore, Pet Social Ground, Singapore Cat Festival, Deloitte, and many more.
- Exhibited great communication and audience engagement skills by emceeing for crowds of over 12,000 participants, showcasing **critical thinking** by improvising activities for crowd participation during unforeseen delays.

ACADEMIC PROJECTS

NTU Product Club: **Scam Prevention Solution – Coffee Meets Bagel** Jan 2025 – March 2025

- *NTU-SMU Internal Product Challenge (IPC) 2025 Winning Team*
- Developed a **three-layer scam detection system** for Coffee Meets Bagel(CMB) that enhances user safety on dating platforms. The approach uses AI keyword detection, user reporting, and fake, AI-controlled accounts to flag, verify, and eliminate scammers.
- Designed **high-fidelity wireframes** in Figma, and a functional demo of how they AI would interact with users.
- Spearheaded and led my team to create a solution that demonstrates expertise in **UX design, cybersecurity, and AI integration**.
- Presented to a panel of judges including the **CEO and Head of Product** at CMB.

NTU Web Design Project: **Product Website Creation**

Jan 2024 – April 2024

- Spearheaded a team of four in the creation of a marketing campaign and website that sells hair dryers for a school project, designing the project's brand identity and logo.
- Coded the website using **HTML, CSS, and JavaScript**.

LEADERSHIP / EXTRACURRICULAR ACTIVITIES

NTU Product Club | **Member**

Jan 2025 – Present

- Winner of NTU-SMU joint Internal Product Challenge (IPC) 2025.

NTU Soul Funky Pop & Lock | **Dance Captain** (Dance Club)
